## Skills

Linux/Unix • Networking  
Detail Oriented • Debugging  
Graphic Design • Problem Solver  
Git • Software Development Lifecycle  
Web Design • Agile/SCRUM • Flexible

**C/C++**

**HTML/CSS**

**JavaScript** ( Node.js, ReactJS )

**C#** ( including Unity Development )

**Java** ( including Android Development )

**Python** ( Django, Pandas, NumPy, BeautifulSoup )

## Education

**Las Positas Community College**

A.S. Computer Science Degree

**California State University East Bay**

B.S. Computer Science Degree

## Relevant Coursework

Networking  
Web Development  
Computer Graphics  
Mobile Development  
Software Engineering  
Analysis of Algorithms  
Database Architecture

## Career Objective

Passionate recent college graduate with years of programming experience. Looking to leverage academic knowledge of programming, development, and problem-solving to hone my skills and acquire insight into industry standards.

## Work Experience

**theCoderSchool, San Ramon CA**

*Code Coach • November 2016 - July 2021*

- ❖ Created a customized curriculum for each student (aged 8 to 18) using original code projects designed to engage and teach concepts such as logic, syntax, data structures, and object-oriented programming.
- ❖ Taught C++, C#, Java, Python, HTML, CSS, and JavaScript
- ❖ Informed students on best practices in creating development environments.

**Web Developer**

*Freelance • October 2021 - Now*

- ❖ Created and developed websites for clients using React.js and CSS.
- ❖ Projects ranged from static websites to dynamic, data-processing websites.
- ❖ Also includes freelance opportunities for other software and consultations.

## Projects

For more information on projects I am working on, check out my [GitHub](#) and [Personal Website](#).
